

Invitation to Tender — ITT-2026-0417

Roadworks Maintenance Services — Northern District (Synthetic Sample)

This is a synthetic document for demonstration only. It contains deliberately risky clauses so the analyst agent has something substantive to flag.

1. Scope of Works

The Contractor shall provide pavement maintenance and resurfacing services across the Northern District for an initial term of twenty-four (24) months.

2. Variation of Scope

The Company may, at its sole discretion and without prior notice, vary the scope, volume, or location of works by any amount. The Contractor shall absorb all costs arising from such variations within the agreed contract price.

3. Liability and Indemnity

The Contractor shall indemnify the Company against any and all losses, damages, claims, and liabilities of any nature whatsoever, without limitation as to amount, arising directly or indirectly from the performance of this contract, including consequential and indirect losses.

4. Payment Terms

The Company shall settle valid, undisputed invoices within ninety (90) days of receipt. Interest shall not be payable on late payment under any circumstances.

5. Intellectual Property

All intellectual property created, developed, or used by the Contractor in connection with the works — including pre-existing background IP — shall vest absolutely and irrevocably in the Company upon creation.

6. Termination

The Company may terminate this contract for convenience at any time on seven (7) days' written notice. The Contractor shall have no equivalent right of termination and shall not be entitled to compensation for early termination.

7. Service Levels

The Contractor shall perform the works "to a high standard and in a timely manner." Specific performance metrics, response times, and acceptance criteria are not defined in this document and will be determined later by the Company.

8. Subcontracting

The Contractor may subcontract any portion of the works without the Company's consent, provided the Contractor remains liable for subcontractor performance.

9. Governing Law

This contract shall be governed by the laws of the jurisdiction in which the Company is established.
